

## **Manabu FUJIMOTO**

Manabu Fujimoto, M.D., is a Professor and Chair at the Department of Dermatology, Osaka University Graduate School of Medicine, and Professor at the Laboratory of Cutaneous Immunology, Immunology Frontier Research Center (WPI-IFReC), Osaka University.

He is also on the Board of Directors of the International League of Dermatological Societies.

He specializes in connective tissue diseases, particularly focusing on systemic sclerosis and dermatomyositis.

With a medical degree from the University of Tokyo, Dr. Fujimoto has devoted over two decades to understanding and treating autoimmune and connective tissue diseases.

He has made significant contributions to the field, particularly in the study of dermatomyositis, autoantibodies, skin disease, and pathogenesis.
